Summary

Frontend developer transitioned to full-stack: React, TypeScript, Electron, and React Native (Expo); Node.js/Express, Prisma/PostgreSQL, WebRTC/WebSockets, and GitHub Actions CI/CD. Shipped cross-platform communication apps, CanvasRTC, and Next.js marketing sites.

Experience

Coincade Studios June 2025 – Present
Junior Frontend Developer *Mumbai, Maharashtra*

- Built the Electron desktop app (React, TypeScript, Tailwind), in internal testing with 100+ members—channels, DMs, threads, presence, search, notifications, auto-updates, and cross-OS builds.
- Developed the React Native mobile app with Expo (Expo Router, TanStack Query, EAS)—auth, chat, push notifications, and feature parity with desktop.
- Implemented real-time messaging and voice/video huddles over REST and WebSockets using mediasoup and WebRTC, with screen share and reconnect handling.
- Contributed to Node.js microservices (Express, Prisma, PostgreSQL, Redis, Docker) and GitHub Actions CI/CD with tests, migrations, and staging/production deploys.
- Shipped Next.js marketing sites with Tailwind and Framer Motion, including a bilingual (EN/FR) site with SEO, maps, and contact workflows.

Appaxon Solutions May 2025 – June 2025
Frontend Developer Intern *Remote*

- Led front-end development of KodeLayout's first reusable HTML marketplace template, from requirements to responsive, production-ready handoff.

Projects

Noir | *React Native*, *Expo*, *TypeScript*, *Socket.IO*, *Express*, *Prisma*, *PostgreSQL*, *Better Auth*
Real-Time Mobile Chat Application
Android App | Frontend | Backend

- Built a mobile chat app with friend requests and real-time 1:1 messaging over Socket.IO.
- Added typing indicators and an in-app notification center.
- Used Expo Router, TanStack Query optimistic updates, and Better Auth for secure sessions.
- Built an Express + Prisma backend on Render and Neon; shipped Android builds via EAS.

CanvasRTC | *React*, *TypeScript*, *WebRTC*, *WebSocket*, *Express*, *Prisma*, *PostgreSQL*, *quickdraw*
Real-Time Collaborative Canvas Platform
Live | Frontend | Backend

- Built a collaborative whiteboard with shareable room codes, live cursors, and auto-saved boards.
- Implemented mesh WebRTC audio/video with custom WebSocket signaling and STUN fallbacks.
- Enforced per-room peer limits and synced canvas state in real time across participants.
- Built an Express + Prisma backend for JWT auth, email verification, and board persistence.

Technical Skills

Languages: TypeScript, JavaScript
Frontend: React, Next.js, Electron, React Native, Expo, Tailwind CSS
Backend: Node.js, Express, Prisma, PostgreSQL, Redis, WebSocket, WebRTC
Tools: Git, GitHub Actions, Docker, Turborepo, Vercel, DigitalOcean

Education

New Horizon Institute of Technology & Management, Thane May 2025
B.E. in Artificial Intelligence and Data Science *Thane, Maharashtra*
